  • $32 billion for the NIH, $2 billion above FY15
  • $350 million increase for Alzheimer’s disease research
SEC. 230. Hereafter, for each fiscal year through fiscal year 2025, the Director of the National Institutes of Health shall **prepare and submit directly to the President for review and transmittal to Congress, after reasonable opportunity for comment, but without change, by the Secretary of Health and Human Services and the Advisory Council on Alzheimer’s Research, Care, and Services, an annual budget estimate (including an estimate of the number and type of personnel needs for the Institutes) for the initiatives of the National Institutes of Health pursuant to the National Alzheimer’s Plan**, as required under section 2(d)(2) of Public Law 111–375.
NIH Meetings Provided the Basis for Priorities, Milestones, and Budget Estimates

- 2012 Alzheimer’s Disease Research Summit
- 2013 meeting on Alzheimer's Disease-Related Dementias: Research Challenges and Opportunities
- 2013 meeting on Advancing Treatment for Alzheimer’s Disease in Individuals with Down Syndrome
- 2015 Alzheimer’s Disease Research Summit

The recommendations and milestones that emerged from these meetings were used to create a comprehensive set of milestones for the budgeting process
Released July 27, 2015

New Funding Opportunity Announcements

• Research on Informal and Formal Caregiving for Alzheimer's Disease (R01) (PAR-15-348)
  National Institute on Aging
  National Institute of Nursing Research
  Application Receipt/Submission Date(s): Multiple dates, see announcement.

• Health Disparities and Alzheimer's Disease (R01) (PAR-15-349)
  National Institute on Aging
  Application Receipt/Submission Date(s): Multiple dates, see announcement.

• Emerging Directions for Addressing Health Disparities in Alzheimer's Disease (R03) (PAR-15-350)
  National Institute on Aging
  Application Receipt/Submission Date(s): Multiple dates, see announcement.

• Research on Informal and Formal Caregiving for Alzheimer's Disease (R21) (PAR-15-351)
  National Institute on Aging
  National Institute of Nursing Research
  Application Receipt/Submission Date(s): Multiple dates, see announcement.
Emerging Directions for Addressing Health Disparities in Alzheimer's Disease (R03)

(PAR-15-350)

• This FOA invites applications proposing to study health disparities in Alzheimer’s disease (AD) and related disorders. Health disparities research related to AD should include the study of biological, behavioral, sociocultural and environmental factors that influence population level health differences. Research approaches of interest include 1) improving recruitment and retention of populations underrepresented in AD research, 2) identifying priority factors or locating pathways and mechanisms that create and sustain AD health disparities, 3) addressing the challenges faced by informal/family caregivers from diverse racial, ethnic and socioeconomic backgrounds that are associated with the growing population of individuals with Alzheimer’s Disease, and 4) understanding the disparities in access to and utilization of formal long-term supports and services for those with dementia.
New effort related to autopsy information

• Response to Linda Boise’s presentation last year
  • Based on NACC funded multi center grant
• Plan to provide educational materials
  • Video
  • FAQs
• Four centers and NIA in planning group
