A future without Alzheimer's

The race is on. Alzheimer's and related dementias research is a dynamic field, and momentum builds each year. This site is for professional researchers and anyone interested in following the progress in research. The Alzheimer's Association has been involved in every major advancement in Alzheimer's and related dementias research since the 1980's and is a leader in the global fight for a world without Alzheimer's.

Discovering tomorrow's treatments

The Alzheimer's treatment horizon has never looked brighter. More potential treatments are in development than ever before as a result of 30 years of accelerating insight and identification of promising targets for intervention. The Alzheimer's Association is committed to sustaining this pace of discovery.
