

NACC: Research Using NACC Data

Proposal ID	First Name	Last Name	Institution	Status	Title
398	Jeremiah	Aakre	Mayo Clinic ADRC	Paper in Prep	A semi-Markov model for multi-state and interval-censored data: An application
299	Robert	Aarhus	George Mason University	Completed - No Pubs	A Bayesian Analysis of the Effect of Statins on Cognitive Impairment in
638	Erin	Abner	U Kentucky	Paper in Prep	Birth Cohort effects in risk factors for Alzheimer's disease
231	Erin	Abner	University of Kentucky	Abstract Published	Vascular neuropathology in dementia patients receiving antipsychotic therapy
544	Erin	Abner	Univ of Kentucky	Completed - No Pubs	Participant characteristics related to dropout among Alzheimer's Disease
219	Erin	Abner	U of Kentucky	Completed - No Pubs	The development of a total score for the National Alzheimers Coordinating
649	Erin	Abner	University of Kentucky	Paper Published	Traumatic brain injury and psychiatric disorders in dementia due to
25	Kathryn Betts	Adams	Case Western	Completed - No Pubs	Analysis of GDS Data from the Uniform Data Set
622	Mohammed	Ahmed	University of California, San Diego	Abstract Published	Traumatic Brain Injury (TBI) and Dementia Progression
185	Serpil	Aktas	Stony Brook University	Completed - No Pubs	BLUP Estimates of Mixed Model for Alzheimer Data
841	Samantha	Allison	Washington University in St. Louis	Data File Requested	Relationship between proton pump inhibitors and risk of dementia, cognition,
608	Michael	Alosco	Boston University	Paper Published	Modeling the Relationships Among Late-Life Body Mass Index, Cerebrovascular Dise
608	Michael	Alosco	Boston University	Abstract Published	Modeling the Relationships Among Late-Life Body Mass Index, Cerebrovascular Dise
868	Michael	Alosco	Boston University Alzheimer's Disease and CTE Cent	Data File Requested	White matter signal abnormalities in Alzheimer's disease
792	Abdal	Alsaedi	Western Michigan University	Data File Requested	Alzheimer early predication using Big Data analysis.
319	Andre	Altmann	Stanford University	Paper Published	Sex modifies the APOE-related risk of developing Alzheimer's disease
466	Edna	Alvarado	California State University Northridge	Data File Sent	Longitudinal Study of Dementia among minority groups looking at the disparities
470	Hoyoung	An	Asan Medical Center	Completed - No Pubs	Effect of intracranial volume on the progression of dementia
741	Hoyoung	An	National Institute of Dementia	Completed - No Pubs	The Effects of Digoxin on Alzheimer's Disease
491	Hoyoung	An	Asan Medical Center	Completed - No Pubs	The influence of education level on response to acetylcholinesterase
429	Sarah	Anderson	Pacific University	Abstract Published	Depression Influence on Executive Functioning and Processing Speed after account
429	Sarah	Anderson	Pacific University	Abstract Published	The influence of race and depression on processing speed and executive functioni

NACC: Research Using NACC Data

Proposal ID	First Name	Last Name	Institution	Status	Title
373	Liana	Apostolova	UCLA	Abstract Published	Effect of age, gender, marital status and education on behavioral symptoms in MC
373	Liana	Apostolova	UCLA	Paper Published	Risk factors for behavioral abnormalities in mild cognitive impairment and mild
373	Liana	Apostolova	UCLA	Abstract Published	Comparison of the prevalence of neuropsychiatric behaviors between amnesic and
373	Liana	Apostolova	UCLA	Abstract Published	Behavioral reserve in mild cognitive impairment and mild Alzheimer's disease
611	Liana	Apostolova	Indiana ADC	Data File Sent	Genetic factors affecting the response to donepezil in MCI
494	Frank	Appiah	University of Kentucky	Data File Sent	Application of mixture models to Alzheimer's disease
44	Brian	Appleby	Johns Hopkins	Completed - No Pubs	Characteristics of Neuropsychiatric Presentations of CJD and Other Prion
45	Brian	Appleby	Johns Hopkins	Abstract Published	Neuropsychiatric Manifestations in Dementia: Difference Between Young Onset and
775	Zyra	Apugan	UMSL College of Nursing	Data File Requested	Cognitive decline among older African Americans with AD living in nursing homes
439	Maria	Aranda	USC	Abstract Published	Disparities in cognitive function and rate of decline by race/ethnicity
421	Joshua	Armstrong	Dalhousie University	Abstract Published	Frailty Impacts the Relationship Between Neuropathology and Dementia Disease Exp
408	Edmon	Artinyan	Loma Linda University	Completed - No Pubs	Behavioral presentation and manifestation of depression in clinically depressed
208	Alireza	Atri	Bedford VAMC Massachusetts General Hospital	Data File Sent	Compare characterization of clinical course across different tests used to
209	Alireza	Atri	Bedford VAMC Massachusetts General Hospital	Data File Sent	Statistical methods for tracking clinical course
234	Napatkamon	Ayutyanont	Arizona ADC	Abstract Published	Validation of the Alzheimer's Prevention Initiative Composite Cognitive Test Sco
762	OIESWARYA	BHOWMIK	SRM UNIVERSITY, KATTANKULATHUR, INDIA	Data File Requested	Prediction of Disease causing genes using meta heuristic approach
392	Katherine	Bangen	University of California, San Diego	Paper in Prep	Aggregate effects of vascular risk on neuropathology across the spectrum from
393	Katherine	Bangen	University of California, San Diego	Paper in Prep	The neuropathology of empirically-derived mild cognitive impairment subtypes
604	Ioana	Barbantán	Baritiu St	Data File Sent	
913	Shoshana	Bardach	University of Kentucky	Data File Requested	Barriers to engagement in genetic research

NACC: Research Using NACC Data

Proposal ID	First Name	Last Name	Institution	Status	Title
479	Jo	Barnes	UCL Institute of Neurology, London	Data File Sent	APOE e2 is associated with less atrophy and slower progression in controls, MCI
477	Jo	Barnes	UCL Institute of Neurology, London	Data File Sent	Automated estimates of white matter hyperintensity (WMH) volumes are associated
705	Josephine	Barnes	UCL Institute of Neurology	Data File Requested	First predominant symptom development in MCI and AD
478	Jo	Barnes	UCL Institute of Neurology, London	Data File Sent	Subjects with a family history of dementia show different atrophy patterns to
474	Jo	Barnes	UCL Institute of Neurology, London	Paper Published	Disease course varies according to age and symptom length in AD
476	Jo	Barnes	UCL Institute of Neurology, London	Data File Sent	The effects of age on atrophy rates in controls, MCI and AD subjects.
475	Jo	Barnes	UCL Institute of Neurology, London	Data File Sent	Vascular risk factors and events are associated with specific atrophy patterns
6	Sandra	Barral	Columbia	Completed - No Pubs	Compare UDS to other Data Sets
738	Sandra	Barral	Columbia U	Data File Requested	Genetic Variation Underlying Traumatic Brain Injury and Late-Onset
317	Sandra	Barral Rodriguez	Columbia	Paper Published	Common genetic variants on 6q24 associated with exceptional episodic memory perf
317	Sandra	Barral Rodriguez	Columbia	Paper Published	Genetic variants in a 'cAMP element binding protein' (CREB)-dependent histone ac
186	Onur	Baser	The University of Michigan	Completed - No Pubs	Effect of MMSE score on health outcomes among Alzheimers patients
910	Daniel	Bateman	Indiana ADC	Abstract Published	Characterizing differences in NPS between FTLT tau-positive group and the FTLT
725	Salil	Batra	Lovely Professional University	Completed - No Pubs	New Diagnostic Method where neuro-imaging is not available
800	Tom	Beach	Arizona Alzheimers Center	Data File Requested	Conversion after MCI diagnosis based on use of Donepezil or
103	Tom	Beach	Arizona	Paper Published	Accuracy of the Clinical Diagnosis of Alzheimer's Disease at National Institute
103	Tom	Beach	Arizona	Abstract Published	Comparison of Clinical and Neuropathological Definitions of Alzheimer's Disease
103	Tom	Beach	Arizona	Paper Published	Theoretical impact of Florbetapir (18F) amyloid imaging on diagnosis of alzheim
