

NACC: Research Using NACC Data

Proposal ID	First name	Last name	Institution	Status of proposal	Title of proposal
398	Jeremiah	Aakre	Mayo Clinic ADRC	Completed no publication	A semi-Markov model for multi-state and interval-censored data: An application
299	Robert	Aarhus	George Mason University	Completed no publication	A Bayesian Analysis of the Effect of Statins on Cognitive Impairment in
984	Erin	Abner	University of Kentucky	Completed no publication	APOE and Primary Age-Related Tauopathy phenotype
1288	Erin	Abner	University of Kentucky	Paper in prep	Association between parental family history of dementia, participant
638	Erin	Abner	U Kentucky	Completed no publication	Birth Cohort effects in risk factors for Alzheimer's disease
1123	Erin	Abner	University of Kentucky	Data file sent	Cigarette smoking and risk of dementia: a competing risk analysis
231	Erin	Abner	University of Kentucky	Total abstracts = 1	Evaluation of the Neuropathologic Cerebrovascular Sequelae of Antipsychotic Use
544	Erin	Abner	Univ of Kentucky	Completed no publication	Participant characteristics related to dropout among Alzheimer's Disease
219	Erin	Abner	U of Kentucky	Completed no publication	The development of a total score for the National Alzheimers Coordinating
649	Erin	Abner	University of Kentucky	Completed no publication	Traumatic brain injury and psychiatric disorders in dementia due to
958	Nancy	Abraham	Bharathidasan University	Data file requested	Double classification system of AD
25	Kathryn Betts	Adams	Case Western	Completed no publication	Analysis of GDS Data from the Uniform Data Set
1033	Paula	Aduen	University of Virginia	Data file requested	Does cognitive reserve differentially impact decline among younger patients
1140	Folasade	Agboola	Washington University School of Medicine	Total papers = 1	Clinical Pathological Comparison between African Americans and Caucasians
1677	Sade	Agboola	Washington University St. Louis	Data file sent	Racial differences in Alzheimer's research
1307	Sade	Agboola	Washington University in St. Louis	Data file sent	Racial Disparity in the Risk of Developing Alzheimer Disease Dementia
1515	Mohammed	Ahmed	Kaizen Brain Center	Data file requested	Chronic Management of Alzheimer's Disease
622	Mohammed	Ahmed	University of California, San Diego	Total abstracts = 1	Traumatic Brain Injury Dementia
957	Sangwoo	Ahn	University of Minnesota, Twin Cities	Total abstracts = 1	Factors associated with conversion to mild cognitive impairment or Alzheimer's
1313	Manoj Kumar	Ainala	Asian Institute of Technology	Data file sent	Detection of Alzheimer's disease using machine learning techniques.
185	Serpil	Aktas	Stony Brook University	Completed no publication	BLUP Estimates of Mixed Model for Alzheimer Data
1183	Jack	Albright	The Nueva School	Data file sent	Using Machine Learning to Forecast the Progression of Alzheimer's Disease

NACC: Research Using NACC Data

Proposal ID	First name	Last name	Institution	Status of proposal	Title of proposal
1146	Claire	Alexander	Ohio University	Data file requested	Interactions between TBI and APOE status related to the risk, onset, and
1179	Rizwan	Ali	Comsats university islamabad, Abbottabad campus	Data file requested	Early detection of alzheimer disease using machine learning
841	Samantha	Allison	Washington University in St. Louis	Completed no publication	Relationship between proton pump inhibitors and risk of dementia, cognition,
1730	Madeline	Ally	Boston University School of Medicine	Data file requested	Traumatic Brain Injury and FLAIR White Matter Hyperintensities
1593	Badr	Alnasser		No status entered	
1666	Mohammed	Alom		No status entered	
1576	Michael	Alosco	Boston University	Data file requested	The Contribution of Age-Related Tauopathies to Alzheimer's Disease.
993	Michael	Alosco	Boston ADC	Total papers = 1	Association between a history of TBI and cognitive decline in subjects with
1240	Michael	Alosco	Boston University School of Medicine	Paper in prep	Examining Cerebrovascular Disease as the Underlying Pathophysiology of
1111	Michael	Alosco	Boston University School of Medicine	Data file requested	The Contribution of Cerebral Microbleeds to the Clinical and Neuropathological
608	Michael	Alosco	Boston University	Total abstracts = 1 and total papers = 1	The Relationships Among Body Mass Index, Alzheimer's Disease Neuropathology,
868	Michael	Alosco	Boston University Alzheimer's Disease and CTE Cent	Total papers = 1	White matter signal abnormalities in Alzheimer's disease
792	Abdal	Alsaedi	Western Michigan University	Total abstracts = 1	Alzheimer early predication using Big Data analysis.
1287	Ahmad	Alsemari	William James College	Data file requested	Dissociating Social disinhibition in the frontal and temporal variants of
1119	Ahmad	Alsemari	William James College	Data file requested	Examining Social Semantic Knowledge in Frontotemporal Dementia Patients with
319	Andre	Altmann	Stanford University	Total papers = 1	Longitudinal analysis of APOE and gender mediated conversion risk in
466	Edna	Alvarado	California State University Northridge	Completed no publication	Longitudinal Study of Dementia among minority groups looking at the disparities
942	Takashi	Amano	Washington University in St. Louis	Data file sent	Linking neuroscience and social work: the association between social factors
470	Hoyoung	An	Asan Medical Center	Completed no publication	Effect of intracranial volume on the progression of dementia
741	Hoyoung	An	National Institute of Dementia	Completed no publication	The Effects of Digoxin on Alzheimer's Disease
491	Hoyoung	An	Asan Medical Center	Completed no publication	The influence of education level on response to acetylcholinesterase
1218	Thomas	Anastasio		Data file sent	Comparing Static and Dynamic Artificial Intelligences on their Ability to

NACC: Research Using NACC Data

Proposal ID	First name	Last name	Institution	Status of proposal	Title of proposal
1056	Sarah	Anderson	Greenville VA Health Care Center	Completed no publication	Impact of Anticholinergic Burden on Cognitive Test Performance - an analysis
429	Sarah	Anderson	Pacific University	Total abstracts = 3	Impact of Depression Symptoms on Executive Functioning and Processing Speed in
921	Sarah	Anderson	Pacific University	Abstract submitted	Impact of depression on executive functioning and
927	Roy	Anderson	Imperial College London	Total papers = 1	Why do so many clinical trials for possible therapies for Alzheimer?s disease
1505	Daniel	Andruchow		Data file requested	Operationalizing Mild Cognitive Impairment in Bipolar Disorder: An Analysis of
1314	Anusha	Annalappan Sathyamoor	Indian Institute of Science	Paper submitted	Identification of patterns of mild cognitive impairment for early detection of
1711	Liana	Apostolova	Indiana University	Data file requested	Genomic Studies in Early Onset Alzheimer's Disease (EOAD)
373	Liana	Apostolova	UCLA	Paper published	Behavioral Reserve in MCI and AD
1535	Liana	Apostolova	IUPUI	Abstract accepted	Clinical and genetic risk factor effects in EOAD vs. LOAD
611	Liana	Apostolova	Indiana ADC	Data file sent	Genetic factors affecting the response to donepezil in MCI
494	Frank	Appiah	University of Kentucky	Completed no publication	Application of mixture models to Alzheimer's disease
44	Brian	Appleby	Johns Hopkins	Completed no publication	Characteristics of Neuropsychiatric Presentations of CJD and Other Prion
45	Brian	Appleby	Johns Hopkins	Total abstracts = 1	Neuropsychiatric Presentations of Dementia According to Age of Onset
775	Zyra	Apugan	UMSL College of Nursing	Abstract published	Cognitive decline among older African Americans with AD living in nursing homes
1381	Maria	Aranda	University of Southern California	Data file requested	The Role of Race/Ethnicity and Psychiatric History in the Transition to
439	Maria	Aranda	USC	Total abstracts = 1	Disparities in the trajectory of cognitive function among older Asians, African
421	Joshua	Armstrong	Dalhousie University	Total abstracts = 1	Mathematical modeling of frailty, cognition, and neuropathology
408	Edmon	Artinyan	Loma Linda University	Completed no publication	Behavioral presentation and manifestation of depression in clinically depressed
1532	Nibal	Arzouni	USC Stevens Neuroimaging and Informatics Institute	Data file sent	Ethno-racial Health Disparities in Biomarkers for Alzheimer's disease.

NACC: Research Using NACC Data

Proposal ID	First name	Last name	Institution	Status of proposal	Title of proposal
1318	Andrew	Aschenbrenner	Washington University St. Louis	Paper published	Sensitivity and Specificity of Montreal Cognitive Assessment domain scores to
1139	Adrienne	Atayde	St. Michael's Hospital	Data file requested	Nighttime Behavior Prevalence in Relation to Declining Cognition in Subjects
1399	Adrienne	Atayde	Keenan Research Centre, St. Michael's Hospital	Total papers = 1	Sleep Disturbances in Cognitively Asymptomatic Patients with
1086	Adrienne	Atayde	St. Michael's Hospital (University of Toronto)	Total abstracts = 2	Association of Declining Cognitive Status and Nighttime Behaviour Prevalence
208	Alireza	Atri	Bedford VAMC Massachusetts General Hospital	Completed no publication	Compare characterization of clinical course across different tests used to
209	Alireza	Atri	Bedford VAMC Massachusetts General Hospital	Completed no publication	Statistical methods for tracking clinical course
1773	Justina	Avila-Rieger	Columbia University Medical Center	Data file sent	Advanced Psychometric Methods in Cognitive Aging Research - 2021
1572	Temitope	Ayodele	Columbia University	Data file sent	Genomic analysis of behavioral phenotypes in Alzheimer's disease
234	Napatkamon	Ayutyanont	Arizona ADC	Total abstracts = 1	Development of Composite Cognitive Endpoints for Presymptomatic AD Trials
1536	Ganesh	Babulal	Washington University School of Medicine	Paper in prep	The intersection between depression, preclinical AD and symptomatic AD across
1737	Peter	Bach	Memorial Sloan Kettering Cancer Center	Data file requested	Age, Weight, and Sex Distribution of Early Alzheimer's Disease
1154	Abigail	Baily	University of Nevada Las Vegas	Paper in prep	Network analysis of cognitive symptom domains in Alzheimer's Disease
392	Katherine	Bangen	University of California, San Diego	Paper published	Aggregate effects of vascular risk on neuropathology across the spectrum from
393	Katherine	Bangen	University of California, San Diego	Paper in prep	The neuropathology of empirically-derived mild cognitive impairment subtypes
1793	Sarah	Banks		No status entered	
1637	Jia	Bao	Grossman School of Medicine	Data file requested	Generalized mixture cure models with application to Alzheimer's disease.
604	Ioana	Barbantan	Barituu St	Completed no publication	
1208	Justin	Barber	University of Kentucky	Data file sent	Brief cognitive assessment of older adults with limited formal
1028	Justin	Barber	University of Kentucky	Total abstracts = 1 and total papers = 1	Subjective Memory Complaints in Cultural Majority and Minority Groups
1286	Justin	Barber	University of Kentucky	Data file sent	Substance abuse and the aging brain

NACC: Research Using NACC Data

Proposal ID	First name	Last name	Institution	Status of proposal	Title of proposal
913	Shoshana	Bardach	University of Kentucky	Paper submitted	Barriers to engagement in genetic research
1243	Warren	Barker	Mount Sinai Medical Center	Data file requested	Utility of Amyloid Imaging in Predicting Progression from Mild Cognitive
1710	Megan	Barker	Columbia University Irving Medical Center	Data file sent	Validating diagnostic criteria for prodromal behavioral variant frontotemporal
479	Jo	Barnes	UCL Institute of Neurology, London	Paper in prep	APOE e2 is associated with less atrophy and slower progression in controls, MCI
477	Jo	Barnes	UCL Institute of Neurology, London	Paper in prep	Automated estimates of white matter hyperintensity (WMH) volumes are associated
705	Josephine	Barnes	UCL Institute of Neurology	Paper submitted	First predominant symptom development in MCI and AD
478	Jo	Barnes	UCL Institute of Neurology, London	Paper in prep	Subjects with a family history of dementia show different atrophy patterns to
474	Jo	Barnes	UCL Institute of Neurology, London	Total papers = 1	Symptoms are associated with atrophy patterns in Alzheimer disease (AD).
476	Jo	Barnes	UCL Institute of Neurology, London	Total abstracts = 1	The effects of age on atrophy rates in controls, MCI and AD subjects.
475	Jo	Barnes	UCL Institute of Neurology, London	Paper in prep	Vascular risk factors and events are associated with specific atrophy patterns
6	Sandra	Barral	Columbia	Completed no publication	Compare UDS to other Data Sets
738	Sandra	Barral	Columbia U	Completed no publication	Genetic Variation Underlying Traumatic Brain Injury and Late-Onset Alzheimer's
317	Sandra	Barral Rodriguez	Columbia	Total papers = 3	Memory performance in ADC/NACC data
1035	Douglas	Barthold	University of Washington	Completed no publication	Utilization and effectiveness of pharmaceutical therapies used throughout the
186	Onur	Baser	The University of Michigan	Completed no publication	Effect of MMSE score on health outcomes among Alzheimers patients
1268	Debraj	Basu	University of California Davis	Data file sent	Novel method to investigate the impact of social and economic background and
966	Randy	Bateman	Wash U ADC	Completed no publication	Amyloid measures across plasma, CSF and PET scans
910	Daniel	Bateman	Indiana ADC	Total abstracts = 1	Characterizing differences in NPS between FTLT tau-positive group and the FTLT
725	Salil	Batra	Lovely Professional University	Completed no publication	New Diagnostic Method where neuro-imaging is not available

NACC: Research Using NACC Data

Proposal ID	First name	Last name	Institution	Status of proposal	Title of proposal
1393	Sarah	Bauermeister	University of Oxford	Data file requested	Early life history, genetic predisposition, lifestyle and sociodemographic
1394	Sarah	Bauermeister	University of Oxford	No status entered	Sensory deficits and longitudinal cognitive and dementia outcomes
983	Ece	Bayram	Lou Ruvo Center for Brain Health	Paper published	
1324	Ece	Bayram	University of California San Diego	Paper in prep	Sex differences for co-morbid pathologies and co-morbidity impact on symptom
1411	Thomas	Beach	Banner Sun Health Research Institute - Arizona	Data file sent	Estimation of Odds Ratios for Dementia from NIA-AA Alzheimer's Disease
1326	Thomas	Beach	Banner Sun Health Research Institute	Data file sent	Comparison of Postmortem Neuropathology in E280A PS1 Mutation Carriers with
800	Tom	Beach	Arizona Alzheimers Center	Completed no publication	Conversion after MCI diagnosis based on use of Donepezil or
103	Tom	Beach	Arizona	Total abstracts = 1 and total papers = 2	Neuropathological Agreement with the Clinical Diagnosis of Alzheimer's Disease
1297	Thomas	Beach	Vivid Genomics, Inc.	Abstract accepted	Predicting phenotypes in Alzheimer's Disease using machine learning-enabled
1724	Sara	Becker	University of Calgary	Data file requested	Stability of MCI and Dementia Diagnoses in Psychiatric Groups
74	Duane	Beekly	NACC	Total papers = 1	Description of the Uniform Data Set Database
82	Duane	Beekly	University of Washington	Total abstracts = 1	The NACC Uniform Data Set
872	Duane	Beekly	NACC	Total abstracts = 1	The National Alzheimer's Coordinating Center: Development of the MRI, PET and
75	Duane	Beekly	NACC	Total abstracts = 1 and total papers = 1	The National Alzheimers Coordinating Centers Data Submissions System and
218	Duane	Beekly	NACC - University of Washington	Total abstracts = 1	UDS FTLD System Abstract
1030	Mirza Faisal	Beg	Simon Fraser University	Data file requested	Neuroimaging measures to design novel biomarkers for neurodegenerative
330	Susan	Bell	Vanderbilt Univeristy Medical Center	Total papers = 1	Association of the frailty syndrome and risk of developing Alzheimer's disease
1276	Steve	Belle	University of Pittsburgh	Data file sent	Neuropsychiatric test norms
1408	Jared	Benge	Baylor Scott White Medical Center	Data file requested	Volumetric Correlates of the UDS 3.0 Neuropsychological Battery

NACC: Research Using NACC Data

Proposal ID	First name	Last name	Institution	Status of proposal	Title of proposal
1039	Jared	Benge	Baylor Scott and White Health	Total papers = 1	Supplementary Scores for the Uniform Data Set 3.0: Normative data and
1530	Andreana	Benitez	Medical University of South Carolina	Completed no publication	Antemortem Diffusion MRI and Postmortem White Matter Rarefaction
1174	Antonia	Bennett	University of North Carolina	Data file requested	Psychometric Evaluation of the Geriatric Depression Scale: Rates of missing
553	David	Bergeron	Universit?? Laval	Completed no publication	Cognitive trajectories of early-onset atypical Alzheimer variants
817	Christian	Bergman	EVMS	Data file sent	Hydrophilic vs Lipophilic Statin Therapy in Mild Cognitive Impairment
640	Christian	Bergman	EVMS	Completed no publication	Patterns in NPI-questionnaire with volumetric MRI
892	Alaa	Bessadok	High institute of management - Gabes , Tunisia	Data file requested	A model for early prediction of Alzheimer disease using a hybrid data mining
1490	Lilah	Besser	Florida Atlantic University	Data file sent	Longitudinal associations between neighborhood greenspace and brain aging in
1220	Lilah	Besser	Florida Atlantic University	Total papers = 1	Associations between cardiovascular disease and FTLT-TDP
19	Lilah	Besser	NACC	Total abstracts = 1 and total papers = 1	Body Mass Index, Weight Change, and Clinical Progression in MCI and AD
332	Lilah	Besser	NACC	Total abstracts = 1 and total papers = 1	Characterizing PD-MCI in the NACC sample
639	Lilah	Besser	NACC	Total papers = 2	Clinical characteristics among asymptomatic PART subjects
582	Lilah	Besser	NACC	Total abstracts = 1	Clinical characteristics associated with neuropathological Lewy body disease
978	Lilah	Besser	NACC	Total abstracts = 2	Clinical diagnoses in those with primary age related tauopathy and AD
200	Lilah	Besser	University of Washington - NACC	Total abstracts = 1	Comparison of Neuropsychological Test Scores among English and Spanish Speakers
277	Lilah	Besser		Completed no publication	Late life BMI, Weight change, and AD pathology
249	Lilah	Besser		Total abstracts = 1 and total papers = 1	Late life systolic blood pressure, body mass index, and heart rate, and
764	Lilah	Besser	NACC	Completed no publication	Preclinical and prodromal Lewy body disease in pathologically confirmed PD and
763	Lilah	Besser	NACC	Total abstracts = 1	Pulse Pressure and clinical and neuropathological AD and CVD

NACC: Research Using NACC Data

Proposal ID	First name	Last name	Institution	Status of proposal	Title of proposal
977	Lilah	Besser	NACC	Paper published	UDS 3 descriptive paper
391	Lawrence	Best	University College London	Completed no publication	Chronic Traumatic Encephalopathy and Alzheimer's disease - what is the link and
1765	Brianne	Bettcher	University of Colorado Anschutz Medical Campus	Data file sent	Advanced Psychometric Methods in Cognitive Aging Research - 2021
1228	Keith	Betts	Analysis Group	Data file sent	Alzheimer's Disease Natural History Study Using the National Alzheimer's
325	Amor	Bhalla	Arizona State Univeristy	Data file requested	Dementia outcomes through predictive modeling techniques
648	Priya	Bhatt	University of Southern California	Completed no publication	Candidate Gene Study to identify the relationship of a potentially
380	Priya	Bhatt	University of Southern California	Data file requested	Multivariate analysis GWAS analysis to determine genetic variants associated
177	Rhea	Bhatta	Lehigh University	Total abstracts = 1	Alzheimers Disease and toxicity exposure: a gene-environment interactions
821	Rhea	Bhatta	University of Pennsylvania	Data file sent	An Econometric Analysis of Non-Genetic and Genetic Risk Factors Associated with
762	Oieswarya	Bhowmik	SRM UNIVERSITY, KATTANKULATHUR, INDIA	Paper in prep	Prediction of Disease causing genes using meta heuristic approach
1743	Jiang	Bian	University of Florida	Data file sent	Develop a trial simulation framework through causal-principled machine
1359	Kathleen	Bianco		No status entered	
674	Kathy	Bianco	Walden University	Paper published	Risk of Alzheimer's disease among older Mexican Americans with diabetes type 2
761	Ann	Bilbrey	Stanford University School of Medicine	Total papers = 1	
1250	Marie-Abele	Bind	Harvard University	Completed no publication	Causal analyses to identify risk factors for dementia
1141	Aidan	Bindoff	Wicking Dementia Research and Education Centre	Paper in prep	Hierarchical models of cognitive decline
1304	Colin	Birkenbihl	Fraunhofer SCAI	Paper in prep	Mapping out the AD data landscape
658	Ram	Bishnoi	UT health science center	Completed no publication	Characterizing the ethnic differences in mild cognitive impairment and
534	Ram	Bishnoi	University of Texas Health Science Center	Completed no publication	Utility of latent construct of dementia to study the imaging biomarkers
483	Deborah	Blacker	Mass ADRC	Total papers = 1	
125	Deborah	Blacker	Mass General	Completed no publication	A genome-wide association study of Alzheimer's disease with psychosis
39	Deborah	Blacker	Mass ADRC	Total papers = 1	Analytic Strategies for the NACC Database

NACC: Research Using NACC Data

Proposal ID	First name	Last name	Institution	Status of proposal	Title of proposal
443	Deborah	Blacker	Mass General Hospital	Total abstracts = 2 and total papers = 1	Estimation of APOE risk curves for the Alzheimer Prevention Initiative
1566	Jonathan	Blackman	North Bristol NHS Trust / University of Bristol	Data file sent	Post-Mortem Beta-Amyloid Plaques and Neurofibrillary Tau Tangles and Their
26	Donald	Bliwise	Emory	Total papers = 1	Sleep Phenotypes by Diagnosis
1583	Louise	Bloch	University of Applied Sciences and Arts Dortmund	Paper in prep	External Validation of interpretable machine learning models for the early
98	Lisa	Bloudek	University of Washington	Completed no publication	CDR State Transition Probabilities in Alzheimer's Disease with and without
144	Tracy	Blumenfeld	Rapidtrials	Completed no publication	Mild To Moderate Alzheimer's and Co-morbid Conditions
1100	Erin	Boespflug	Oregon Health Science University	Data file requested	The intersection of amyloid and cerebrovascular pathology: the perivascular
1696	Bradley	Boeve	Mayo Clinic	Data file requested	Frequency of Probable RBD Among NACC Participants
97	Bradley	Boeve	Mayo Clinic	Total abstracts = 1	Is High Educational Attainment Over-represented Among Patients with a
1462	Linzy	Bohn	University of Alberta	Data file sent	Data-driven frailty subtypes in normal cognitive aging, mild cognitive
943	Corey	Bolton	Wheaton College	Abstract submitted	Neuropsychological differentiation of early-onset and late-onset Alzheimer's
206	Aaron	Bonner-Jackson	Cleveland Clinic	Completed no publication	Association of essential tremor, cognitive dysfunction, and risk of dementia
642	Tyler	Bonnett	UW NACC	Completed no publication	Lefthandedness project
1335	David	Borchelt	University of Florida	Data file requested	Prevalence of CAA without tau or neuritic amyloid in dementia
995	Joseph	Boscarino	William James College	Total abstracts = 1	Exploring possible risk factors associated with frontotemporal dementia and
1261	Joseph	Boscarino	William James College	Abstract submitted	Investigating Neuropsychological and Neuropsychiatric Profiles of Alzheimer's
1075	Joseph	Boscarino	William James College	Abstract published	Investigating the link between language impairments and neuropathology in PPA
1379	Joseph	Boscarino	William James College	Data file sent	Singular and Comorbid Clinicopathological Correlates Among Early-Onset and
1364	Nicholas	Bott	Stanford University School of Medicine	Data file sent	Application of dementia risk prediction algorithms to a longitudinally
9	Adam	Boxer	University of California, San Francisco	Total abstracts = 1 and total papers = 1	Medication Use in Frontotemporal Lobar Degeneration (FTLD) as compared to
390	Clara	Boyd	Columbia University Medical Center	Data file requested	Poor visuospatial performance and poor delayed recall are associated with
110	Willa	Brenowitz	NACC	Total abstracts = 1	Characterizing subject informants in NACCs UDS database

NACC: Research Using NACC Data

Proposal ID	First name	Last name	Institution	Status of proposal	Title of proposal
1110	Willa	Brenowitz	UCSF	Total papers = 1	Hearing and visual impairments and link to dementia
270	Willa	Brenowitz	NACC	Total abstracts = 1 and total papers = 1	Prevalence of cerebral amyloid angiopathy in NACC NP dataset
511	Willa	Brenowitz		Total abstracts = 2 and total papers = 3	Prevalence of mixed neuropathologies in autopsied older adults and associations
227	Willa	Brenowitz		Total papers = 1	The associations of social relationships with risk of incident amnestic and
1295	Robert	Brent	Fordham University	Data file sent	CBA of Nursing Homes
886	Robert	Brent	Fordham University	Paper published	CBA of hearing aids in connection with reducing the symptoms of dementia
547	Robert	Brent	Fordham University	Total papers = 4	Cost-Benefit Analysis (CBA) of Years of Education as an intervention in
535	James	Brewer	UC San Diego	Total abstracts = 1	Quantitative Imaging to Detect Regional Neurodegeneration in AD and other
1019	Katharine	Brewster	New York State Psychiatric Institute / Columbia	Paper in prep	Associations between Age-related Hearing Loss, Late-life Depression, and
1570	Katharine	Brewster	Columbia University College of Physicians and Surg	Data file sent	Neurocognitive profile of Serious Mental Illness
1170	Glenna	Brewster	Emory University	Completed no publication	Nighttime behaviors in persons with MCI and Alzheimer's disease
1168	Emily	Brickell	VA North Texas Healthcare System	Data file requested	A machine learning approach to predicting conversion to Alzheimer's disease
220	Kate	Bristow	NACC	Total abstracts = 1	Consensus Diagnosis and Predictors of Diagnostic Accuracy in the National
385	Zoran	Brkanac	University of Washington	Data file sent	Next generation Mendelian genetics in familial Alzheimer disease
586	Ron	Brookmeyer	UCLA	Completed no publication	Evaluation of factors that may protect persons with AD pathology from clinical
610	Maria	Brown	Murray State University	Total abstracts = 1	
371	Patrick	Brown	Columbia	Total abstracts = 1	Common Functional Deficits in MCI and Dementia
778	Daniel	Brown	University of Virginia Health System	Completed no publication	Cross-validation of a risk score algorithm to predict future cognitive
295	Patrick	Brown	Columbia	Completed no publication	Frontally-Mediated Syndromes in Late Life: An Exploration
1581	Travonia	Brown-Hughes	Hampton University - School of Pharmacy	Data file requested	Health Disparities in Risks for Cognitive Decline
267	Marla	Bruns	Mayo Clinic	Total abstracts = 1	Repeated Measure in Subsequent Population Data to Confirm Evidence that High
485	Guojun	Bu	Mayo Clinic	Completed no publication	The effects of APOE genotype on brain volume ?? ?? ?? ?? ?? ?? ?? ?? ?? ??

NACC: Research Using NACC Data

Proposal ID	First name	Last name	Institution	Status of proposal	Title of proposal
1156	Omonigho	Bubu	NYU Langone Health	Data file requested	Sleep disturbance and longitudinal changes in cognition and Alzheimer?s
1157	Omonigho	Bubu	NYU Langone Health	Total abstracts = 1	Sleep disturbance, vascular burden and prospective cognitive decline in
1392	Magda	Bucholc	Ulster University (United Kingdom)	Data file sent	The association between hearing and vision impairment and risk of dementia
1026	Magda	Bucholc	Ulster University	Data file sent	Integrative computational model for predicting conversion from mild cognitive
541	Virginia	Buckles	Washington University School of Medicine	Total abstracts = 1 and total papers = 1	The DIAN and NACC UDS Comparison Study
550	Charley	Budgeon	University of Western Australia	Completed no publication	Personalised Survival Analysis in Alzheimer's Disease
1005	Marric	Buessing	Medicus Economics, LLC	Data file requested	Estimating transition probabilities for Alzheimer's disease states
327	Teresa	Buracchio	AbbVie	Data file sent	Development of composite measures for AD clinical trials
997	Shanna	Burke	Florida International University	Data file requested	Variability in MMSE performance across time between Hispanic and non-Hispanic
686	Shanna	Burke	Florida international University	Total papers = 2	African-Americans and Alzheimer's Disease: Understanding the Risk Factors
1062	Shanna	Burke	Florida International University	Total abstracts = 2	Computerizing the conversation: A codified approach to consensus diagnosis
735	Shanna	Burke	Florida international University	Total papers = 1	Factors Influencing Attrition Over Time
413	Shanna	Burke	Simmons College	Total papers = 4	Interactions between Behavioral Factors and APOE in predicting Alzheimer's
871	Shanna	Burke	Florida International University	Total papers = 1	Sex differences in brain structures and progression to mild cognitive
1204	Shanna	Burke	Florida International University	Data file requested	Shared neuroanatomical models of psychiatric conditions and Alzheimer's
728	Shanna	Burke	Florida international University	Total papers = 2	longitudinal aspects of prescription drug usage during various stages of
339	Randy	Burnham	Washington University in St. Louis	Completed no publication	Visualizing the Impact of Missing Data within Alzheimer's Disease using D3
909	Kathy	Burson	Fielding Graduate University	Paper published	Early Detection of Declines in Executive Functions in Frontal Lobe Dementia,
1151	Lesley	Butler	F. Hoffman-La Roche	Data file requested	Symptomatic treatment use and Alzheimer's disease progression in the NACC
1712	Rachel	Butler Pagnotti	Cleveland Clinic	Data file requested	Neuropsychological Profile of Limbic Predominant Age-Related TDP-43
1260	Nagarathna	C R	Dsatm	Data file requested	Early detection of Alzheimer's using machine learning
512	Nanette	Caceres	UCLA	Completed no publication	Correlation between height and DLB

NACC: Research Using NACC Data

Proposal ID	First name	Last name	Institution	Status of proposal	Title of proposal
1215	Raquel	Cacho Zurrunero	Aalborg University	Data file requested	Applying machine learning techniques on the diagnosis of Alzheimer disease
996	Janet	Cady	Parabon Nanolabs	Paper in prep	Machine learning methods for risk prediction of late-onset Alzheimer's
937	Ignazio	Cali	Case Western Reserve University	Completed no publication	Characterization A molecular features in iatrogenic
1387	Brandy	Callahan	University of Calgary	Data file requested	Early signs of dementia in schizophrenia
1097	Brandy	Callahan	University of Calgary	Data file requested	Etiologies of mild cognitive impairment subtypes in Parkinson's disease
1537	Patrick	Callahan	UCSF	Data file sent	Analysis of the FTL Module behavioral measures in differentiating FTD
441	Brandy	Callahan	Sunnybrook Health Sciences Centre	Total abstracts = 2	Cognitive and imaging profiles associated with vascular pathologies in dementia

152	Jeanna	Winchester	University of California at Irvine	Completed no publication	Biomarkers of Inflammation and Renal Insufficiency in Aged Cognitively Impaired
1457	Thomas	Wingo	Emory University	Data file requested	Understanding the molecular mechanisms of neuropsychiatric symptoms in AD
417	Thomas	Wingo	Emory University	Total papers = 1	Autosomal recessive causes of early onset Alzheimer's disease
919	Aliza	Wingo	Emory University	Paper in prep	Effect of depression on cognitive decline: Is it mediated through cerebral
87	Thomas	Wingo	Emory Center for Neurodegenerative Disease	Total papers = 1	Estimate the heritability of AD using family history data
727	Thomas	Wingo	Emory University Center for Neurodegenerative Dise	Paper in prep	Examining phenotypic differences between early- and late-onset Alzheimer?s
652	Thomas	Wingo	Emory University	Abstract published	The role of additive and dominant genetic factors in AD.
1665	Lisa	Wise	UCSF Fresno	Data file requested	Progression of Neuropsychiatric Symptoms in Dementia with Lewy Bodies
1217	Elizabeth	Wise	Johns Hopkins	Completed no publication	Long-term outcomes of individuals with autism spectrum disorder
754	Laura	Wojtulewicz	Arizona State University	Completed no publication	Correlating Genomic Profiles with Clinical And Neuropathological
342	Laura	Wojtulewicz	Arizona State University	Total abstracts = 2	Does loss of a spouse impact cognitive trajectory in normal controls, MCI and
146	Laura	Wojtulewicz	Arizona State University	Completed no publication	Investigating Alzheimer's Disease using Data Mining
419	Laura	Wojtulewicz	Arizona State University	Data file sent	Rapcsak Sensitivity of Different Language Measures
783	Laura	Wojtulewicz	Arizona State University	Data file sent	The effects of bilingualism on cognitive performance
1760	Katrin	Wolfova	Columbia University	Data file sent	Advanced Psychometric Methods in Cognitive Aging Research - 2021
68	Benjamin	Wolozin	Boston University School of Medicine	Completed no publication	Effects of angiotensin receptor blockers and ACE inhibitors on dementia
1022	Young	Woo	Mount Sinai	Data file requested	Graphical modeling of dynamic brain connections due to the changes in the
1257	Kathryn	Wood	Emory University School of Nursing	Data file sent	Cognition Changes in Patients with Atrial Fibrillation
1676	Kathryn	Wood	Emory University School of Nursing	Data file sent	Cognition Changes in Patients with Atrial Fibrillation
1231	John	Woodard	Wayne State University	Paper in prep	Body Mass Index and Transition to Mild Cognitive Impairment in Cognitively
347	Martin	Woon	UTSW	Total abstracts = 3 and total papers = 1	Characterizing MCI subjects who remained cognitively stable

NACC: Research Using NACC Data

Proposal ID	First name	Last name	Institution	Status of proposal	Title of proposal
320	Martin	Woon	UT Southwestern Medical Center	Total abstracts = 4 and total papers = 1	Predicting trajectories of MCI with medical, demographic, genetic, and
184	Henok	Wordoffa	Blekinge Institution of Technology	Paper published	Ensemble based Data classification for Early Diagnose of Alzheimer
1719	Liang	Wu	Shandong University	Data file requested	Early Detection of Alzheimer's Disease Using Magnetic Resonance Imaging
1744	Xian-Bo	Wu	Southern Medical University	Data file requested	Factors associated with subjective cognitive decline, late life mild cognitive
938	Yazhou	Wu	Wake Health	Data file requested	Research on Joint Model of Longitudinal Data
1767	Yingyan	Wu	University of California, Los Angeles	Data file sent	Advanced Psychometric Methods in Cognitive Aging Research - 2021
1385	Che-Yuan	Wu	University of Toronto	Paper published	Oral hypoglycemic agents and cognitive decline in people with and without
1684	Che-Yuan	Wu	University of Toronto	Data file sent	The association between cognitive outcomes and different acid suppressants in
1786	Guorong	Wu	University of North Carolina	Data file sent	Understanding the Sex-dependent Effect of APOE on Alzheimer's Disease by
848	Jonathon	Wutke	Nova Southeastern University	Completed no publication	Cognitive Deficits of Huntington's versus Parkinson's Disease through
1626	Mary	Wyman		No status entered	
900	Mary	Wyman	University of Wisconsin/Madison VA Hospital	Total abstracts = 2	Do Specific Symptoms on the Geriatric Depression Scale Predict Incident MCI or
265	Kathryn	Wyman-Chick	Pacific University SPP (doctoral student)	Total papers = 1	Clinical utility of the Clinical Dementia Rating Scale for Parkinson's
985	Kathryn	Wyman-Chick	Regions Hospital/HealthPartners Neuroscience	Total abstracts = 2	Retrospective study of clinical biomarkers of prodromal Dementia with Lewy
1752	Fan	Xia	NACC	Data file sent	The Effect of APOE on Dementia through Multiple Pathologies
712	Michelle	Xia	Northern Illinois University	Completed no publication	Comparative effective analysis of treatment options for Alzheimer's disease
1649	Cally	Xiao	University of Southern California	Data file requested	Comparing Risk Factors for Mild Cognitive Impairment and Alzheimer's Disease
251	Yunlong	Xie	National Institutes of Health	Total papers = 1	Antedependence Models for Nonstationary Categorical Longitudinal Data with
1312	Sng Hui	Xin	Nanyang Technological University	Completed no publication	The influence of social factors on neuropsychiatric symptoms in Alzheimer's
1688	Lisa	Xiong	University of Toronto	Data file sent	Leukotriene receptor antagonists and cognition in AD
1562	Wei	Xiong	School of Mathematics, Jilin University	Completed no publication	Penalized Multiply Robust Estimation in AR(p) Processes with Missing

NACC: Research Using NACC Data

Proposal ID	First name	Last name	Institution	Status of proposal	Title of proposal
378	Chengjie	Xiong	Washington University	Completed no publication	Use of UDS to improve clinical trial design on MCI and preclinical AD
1060	Nan	Xu	Shanghai Jiao Tong University	Data file requested	Early identification of AD and MCI given their daily and demographic
990	Jun	Xu	Beijing Tiantan Hospital	Data file requested	Interactions between amyloid beta and CSF1R in ageing brains
1466	Coco	Xu	Falmouth High School	Data file sent	The Effect of Education and Occupation on the Risk of Developing Alzheimer's
1209	Huiping	Xu	Indiana University	Data file sent	Association between the longitudinal trajectory of neuropsychological
154	Huiping	Xu	Indiana University	Total papers = 1	Longitudinal trajectory of neuropsychological performance and dementia subtypes
90	Karim	Yamout	UCD	Total abstracts = 2	The Combined Influence of Vascular Risk Factors and Alzheimers Disease on
1694	Rui	Yan	University of California Irvine	Data file sent	Eye disease related to pathology
1503	Dixon	Yang	NYU	Data file requested	Identifying distinguishable clinical characteristics in cognitive decline
575	Jiaoyun	Yang	Hefei University of Technology	Total abstracts = 1	A Big Data approach to identify subtypes of Alzheimer's disease AD Drug
1725	Hyun-Sik	Yang	Brigham and Women's Hospital / Massachusetts Gener	Data file sent	Genetics of TDP-43 proteinopathy
139	Nikita	Yaroshevsky	Rollins College	Completed no publication	Perfecting diagnosis of Alzheimer's disease using advanced computer modeling
1253	Anthony	Yeung	University of Toronto	Paper published	Hypertension Control and the Incidence of Mild Cognitive Impairment and
1721	Fuliang	Yi	Shanxi Medical University	Data file sent	The application of ElasticNet and XGboost model in the Alzheimer's disease and
1695	Lydia	Yilekal	Osborn Park High School	Data file sent	Is There a Correlation Between Cholesterol Levels and the Presence of the ApoE4
1409	Rezzak	Yilmaz	Ankara University Medical Scholl Dpt. Neurology	Abstract published	Predictors of neuronal loss in the substantia nigra
806	Jiaqi	Yin	NACC	Data file requested	clinical diagnosis Classification
1747	Gelan	Ying	University of Florida	Data file sent	Longitudinal Effect of the HABIT Behavioral Intervention on Caregiver and
827	Jennifer	Yokoyama	U California, San Francisco	Total papers = 2	HLA genotypes and risk for AD
1584	Richard	Young	University of Nevada Las Vegas	Data file sent	Bayesian variable selection for the analysis of AD
1347	George	Yu	University of Washington	Data file sent	Diabetes medications on cognitive decline
1498	Jean	Yu	Summer STEM Institute	Data file requested	Investigating Implicated Risk of Alzheimer's Disease in those with Autism

NACC: Research Using NACC Data

Proposal ID	First name	Last name	Institution	Status of proposal	Title of proposal
1422	Qun	Yu	Sun Yat-Sen University	Paper published	Early diagnosis of different type of dementia through MRI.
464	Wenbao	Yu	Seoul National University	Total papers = 1	Estimation of AUC through propensity-score-adjustment approach under
1507	Hongmei	Yu	Shanxi Medical University, China	Data file sent	Muti-class diagnosis model and dynamic screening framework for dementia based
1203	May	Yuan	University of Texas at Dallas	Data file requested	The effects of cognitive map building on the development of Alzheimer's
719	Yun	Yung	The Scripps Research Institute	Completed no publication	Somatic genomic variability that may provide mechanistic insights into
1084	Ismaeel	Yunusa	MCPHS University	Data file requested	Use of Atypical Antipsychotics in patients with dementia
1755	Laura	Zahodne		No status entered	
643	Liang	Zhan	University of Pittsburgh	Total abstracts = 1	
409	Jing	Zhang	University of Washington	Data file sent	
876	Jie	Zhang	Zhongshan Hospital, Fudan University	Completed no publication	
1491	Wenbo	Zhang		No status entered	
1777	Yuan	Zhang		No status entered	
1669	Quan	Zhang	Nankai University	Data file requested	MRI reconstruction and diagnosis of Alzheimer's disease by multimodal deep
1237	Yian	Zhang	New York University	Data file sent	Mixture of mixed effects model
1020	Jingru	Zhang	Peking University	Data file requested	Two-sample tests for paired data
290	Zheng	Zhang		Abstract published	Agreement between neuropathologic criteria for the diagnosis of Alzheimer's
1306	Quan	Zhang	Eisai	Paper in prep	Alzheimer's Disease Progression and Outcomes
723	Jie	Zhang	Zhongshan Hospital, Fudan university	Completed no publication	Clinical characteristics differed by neupathologies comfirmed by autopsy among
864	Tingting	Zhang	Brown University	Paper in prep	Effects of comorbidities and polypharmacy on disease progression in
912	Xuan	Zhang	University of Kentucky Sanders-Brown Center on Agi	Paper in prep	Estimating the Effects of Benzodiazepines for Sleep Disturbance on the Risk of
706	Jie	Zhang	Zhongshan Hospital, Fudan University	Completed no publication	Gender differences in socio-demographic and clinical characteristics in HC, MCI
824	Jie	Zhang	University of Washington	Data file requested	Interactions between APOE e4 status and medication on response to the
1674	Zilun	Zhang	University of Toronto	Data file sent	Investigation on application of CLIP model for multimodal dataset
230	Bo	Zhang	Oregon State University	Total papers = 1	Joint random-effects transition models for multivariate longitudinal data

NACC: Research Using NACC Data

Proposal ID	First name	Last name	Institution	Status of proposal	Title of proposal
340	Shenqiu	Zhang	University of Exeter Medical School	Total papers = 1	Modeling Disease Progression in Alzheimer's and Parkinson's disease
278	Qi	Zhang	Vanderbilt University	Completed no publication	Role of cholesterol in amyloid b-induced dysfunction of synaptic transmission
298	Yuhai	Zhang	Univeristy of Washington	Total papers = 1	The association between benzodiazepine (BZD) use and dementia and/or cognitive
854	Jie	Zhang		Completed no publication	The effect of sex, APOE 4 genotype and its interaction on cognition and
1546	Zhongwei	Zhang	King Abdullah University of Science and Technology	Data file sent	Tractable Bayes of Generalized Skew-Elliptical Link Models for Correlated
1720	Shilun	Zhao	University of Chinese Academy of Sciences	Data file requested	Research on data correction of multi-center MRI images
403	Rui	Zhao	University of Kentucky	Completed no publication	Agreement between patient self-report health conditions and their medication
1044	Liping	Zhao	Emory University	Completed no publication	Cognitive Decline in African Americans and Caucasians.
321	Yingqi	Zhao	University of Wisconsin-Madison	Completed no publication	Learning optimal individualized intervention for the prevention of Alzheimer's
1164	Tianyi	Zhao	Harvard Medical School	Completed no publication	Molecular marker identification of AD
965	Ji	Zhaohua	Fourth Military Medical University	Data file requested	Explore the risk factors for predicting the progressess
1804	Zhiwei	Zheng		No status entered	
1557	Diane	Zheng	University of Miami	Data file sent	Visual impairment and cognitive decline
1718	Chen	Zhenpeng		No status entered	
1559	Simon	Zhornitsky	Yale	Data file requested	Neuroimaging the association between alcohol use and dementia
1792	Simon	Zhornitsky	Yale University	Data file sent	Neural correlates of apathy in Alzheimer's disease
489	Yan	Zhou	UCLA	Completed no publication	
1358	Feng	Zhou	Peking University	Data file sent	Establish a clinical database of AD patients in China
53	Andrew	Zhou	University of Washington	Total abstracts = 1 and total papers = 2	Analysis of binary long data in multi-center studies with missing covariates
94	Andrew	Zhou	University of Washington	Total abstracts = 1 and total papers = 3	Applied Missing Data Analysis in Health Sciences
570	Jiayu	Zhou	Michigan State University	Paper published	Building disease progression models for Alzheimer's disease
65	Andrew	Zhou	NACC	Total abstracts = 2 and total papers = 4	Estimate the ROC curve and its area in the presence of nonignorable

NACC: Research Using NACC Data

Proposal ID	First name	Last name	Institution	Status of proposal	Title of proposal
861	Wenjun	Zhou	Zhongshan Hospital, Fudan University	Data file requested	The effect of sleep apnea, APOE genotype and its interaction on
1579	Carolyn	Zhu		No status entered	
224	Joyce	Zhu	Vanderbilt University	Total abstracts = 1	Dissociable Facets of Executive Dysfunction and Association with Preclinical
297	Joyce	Zhu	Vanderbilt University	Data file sent	Functional-Cognitive Marker of Preclinical AD
698	Carolyn	Zhu	Icahn School of Medicine at Mt Sinai and JJP VAMC	Total abstracts = 1	Relationship between apathy and depression
1706	Hakim	Ziani	University of Science and Technology Houary Boum	Data file requested	Applying different clustering algorithms and comparing results for an AD
1227	Zvinka	Zlatar	UC San Diego	Completed no publication	Subjective cognitive decline and objective cognition in Hispanics/Latinos
1517	Giovanni	Zuliani	University of Ferrara, Italy	Data file requested	Cognitive decline of patients with Alzheimer disease or vascular dementia
556	Anna	Zvikhachevskaya	IXICO PLC	Completed no publication	Using multivariate machine-learning tools to aid early and accurate diagnosis
1254	Daniel	de Marchi	University of North Carolina - Chapel Hill	Paper in prep	Applying Generative Models to find Critical Boundaries for Alzheimer?s
1047	Liselotte	de Wit	University of Florida	Completed no publication	Predictors of cognitive and functional change and progression to dementia in
1604	aditi	gupta	University of Kansas Medical Center	Data file sent	Assessment of cognition in kidney transplant patients
1794	qinqinn	qin	Nanjing University of traditional Chinese Medicine	Data file sent	to test a stated hypothesis
1574	Ingrid	van Maurik	Amsterdam UMC - location VUMC	Data file requested	Individualized predictions of institutionalization and mortality across the
618	Wiesje	van der Flier	VU University Medical Center	Completed no publication
